

# **Adolfo Bastardo**

Full-stack Developer

Madrid, Spain - [contact@adolfo.dev](mailto:contact@adolfo.dev) - [+34 641 91 83 25](tel:+34641918325)

<https://linkedin.com/in/rodasla> - <https://github.com/Rodasac>

## **Professional Summary**

Senior Full-stack Developer based in Madrid. With 8+ years of experience architecting scalable web applications and optimizing system performance. Proven track record of delivering high-impact solutions across eCommerce, fintech, and healthcare domains, with expertise in modern web technologies and API development. Successfully improved application performance by up to 40% and managed systems serving 10K+ daily active users.

## **Experience**

### **Sr. Fullstack Web Developer**

[SPACE44](#), Remote

December 2023 - Present

- Developed SPACE44's main website using WordPress with custom plugins tailored to client requirements
- Built responsive landing pages for advertisement campaigns using React, Next.js, and Tailwind CSS
- Resolved integration issues across client websites, working with diverse tech stacks including PHP/Symfony and PostgreSQL
- Implemented data visualization solutions using Chart.js and maintained applications with Docker containerization

Tools: React, React Native, Redux Toolkit, Chart.js, [Next.js](#), Tailwindcss, React Native Paper, Mantine UI, CSS, HTML, Node.js, Python, PHP, Wordpress, Symfony, MySQL, Oracle, [Ext.js](#), REST API, Docker, Firebase, PostgreSQL, Pytest, Jest

### **Sr. Fullstack Developer**

[adCuality](#), Remote

May 2020 - October 2024

- Optimized existing Symfony REST API performance and simplified client scripting processes
- Migrated legacy dashboard to React application with improved data visualization using Chart.js and D3.js
- Enhanced investment calculation precision from bi-weekly to daily intervals processing
- Maintained GraphQL endpoints and fixed Elasticsearch syncing for improved data querying

Tools: React, Redux, Redux Sagas, Material UI, [Chart.js](#), D3.js, Sass, CSS, HTML, GraphQL, Rest API, PHP, Symfony, Python, Selenium, MariaDB, Elasticsearch, Docker, Redis, RabbitMQ, Jest

### **Sr. Backend Developer**

[Justo S.A.P.I de C.V.](#), Remote

November 2021 - August 2023

- Developed microservices for a food eCommerce platform using Django and Django REST Framework
- Built integrations with last-mile delivery tools (Locus WMS), ensuring fault-tolerant data synchronization
- Created inventory management solutions with real-time updates using Redis caching
- Collaborated on frontend components using React/Next.js and Angular for admin interfaces

Tools: Python, Django, Django Rest Framework, Django Graphene, MySQL, PostgreSQL, Redis, React, [Next.js](#), [Node.js](#), Express, [Nest.js](#), Angular, Sass, CSS, HTML, GraphQL, Rest API, WMS's Tools like Locus, Jest, Karma

## Odoo Developer

[Oralsys](#), Remote

December 2017 - March 2020

- Co-developed a Dentist Management System with a 3-person team using the Odoo ERP framework
- Built an interactive Odontogram module using Angular and Chart.js for patient dental record visualization
- Developed a financial management module for client payment processing and accounting
- Implemented custom XML/QWeb templates and Angular Material components for enhanced UX

Tools: Odoo, PostgreSQL, Sass, CSS, HTML, XML/QWeb, Angular, Angular Material, [Chart.js](#) (Ng2 Charts), RxJS, NgRX, AMI JS, Karma

## General Coordinator

A.C. Liberarte R.L., San Felipe - Venezuela

December 2016 - November 2017

- Founded a development agency specializing in landing pages and blogs for international clients
- Developed WordPress solutions integrated with MySQL databases
- Built responsive websites using Angular and Bootstrap framework
- Managed project delivery and client relationships across multiple time zones

Tools: Wordpress, MySQL, CSS, Sass, HTML, Angular, Angular Material, Bootstrap

## Jr. Odoo Developer

[A.C. Hoatzin de Base Tecnológica R.L.](#), Mérida - Venezuela

November 2014 - November 2016

- Created custom reporting plugins using XML/QWeb templates and Chart.js integration
- Provided technical support for production Odoo systems via SSH
- Developed automated reports, reducing manual processing time
- Maintained PostgreSQL databases and performed system troubleshooting

Tools: Odoo, PostgreSQL, SSH, Bash, XML/Qweb, Chart.js

## Technical Skills

**Programming Languages:** JavaScript (11 years), Python (8 years), PHP (6 years), TypeScript (4 years)

**Frontend Technologies:** React.js (5 years), Angular (5 years), Next.js (4 years), React Native (2 years), Redux/Redux Toolkit (6 years), Material UI (6 years), Tailwind CSS (2 years), Sass/SCSS (8 years), HTML5/CSS3 (11 years), Chart.js (8 years), D3.js (4 years)

**Backend & APIs:** Symfony (6 years), Django (2 years), [Node.js](#) (3 years), Express (2 years), Nest.js (2 years), REST API (8 years), GraphQL (6 years), Microservices Architecture

**Databases & Infrastructure:** PostgreSQL (8 years), MySQL (5 years), MariaDB (5 years), Redis (6 years), Elasticsearch (4 years), Docker (6 years), RabbitMQ (4 years), Firebase Firestore Database (2 years)

**Testing & DevOps:** Jest (6 years), Pytest (2 years), Karma (4 years), Selenium (4 years), Git (11 years), CI/CD, Firebase (2 years)

**Specialized Platforms:** WordPress (8 years), Odoo ERP (4 years), XML/QWeb (4 years), WMS Integration Tools (2 years)

**Development Methodologies:** Agile/Scrum, Test-Driven Development (TDD), RESTful Design, Progressive Web Apps (PWA)

## Languages

- **Spanish:** Native
- **English:** Professional Working Proficiency (C1)
